

### TECHNICAL CHARACTERISTICS

This cream made with bees wax and sweet almond oil, moisturises and nourishes in depth the leather by smoothening it.

The accurately chosen mineral waxes have been incorporate to waterproof and protect the leather.

These waxes are mixed with a solvent to clean the leather.

The pigments are highly concentrated and allow recolouring faded leather, without the risk of discharge on the bottom of trousers.

These nourishing qualities make it the ideal product to ensure the best outcome, even if the maintenance of the shoe is occasional. They make the leather shine after one simple treatment, even after several weeks.

### APPLICATION FIELDS

Smooth leather

### CARE INSTRUCTIONS

1. Remove dust from the article if necessary.
2. Clean the leather with the help of RENOMAT (Réf.0514)
3. Apply CREME SURFINE with the help of BROSSE POMMADIER (Réf.2600) or a soft cotton cloth and massage the leather
4. Let it dry then polish with a horsehair brush.

### ADVICES

Do a test first on a hidden area.

The POMMADIER BRUSH has been specially designed and patented by the INPI to facilitate application at the seams and edges of soles. It also allow to recover the cream without dirtying the fingers.
